

# How to Increase the Number of Deaths in the Holocaust

[Olodogma](#)

## Abstract

In 2013, Italian police forces raided the homes of numerous participants of the U.S. Stormfront blog. The background of this raid was a discussion about the veracity and reliability of entries in the victims' database of the Israeli Yad Vashem Holocaust Remembrance Center, among other things. To verify these claims, Italian blogger Olodogma looked into the matter. This brief paper documents the results. They show that it is indeed ridiculously easy to submit false, invented information to the Yad Vashem database, and that there seems to be no quality control at all.

Today, 17.03.13, was the 122nd day of preventive incarceration for 4 Italian citizens, first offenders. The following is the text of a letter from the prison by Dr. Mirko Viola, one of the four. In solitary confinement since 20 January 2013! This is the text of the letter.

**Dear (omitted)**

*As I told you before, the most serious accusation against me is the following: "Dissemination of negationist ideologies"; this isn't a crime in Italy, but as far as anyone can tell, I stand accused of... "lèse Holocaust". I'll gloss over P.M. Tescaroli's crass ignorance; he seems to know nothing about Holocaust revisionism (it's not an ideology, but an extremely strict method of historical research), I would, however, like to dwell on the obvious bad faith of a few system hacks who, following in the footprints of Marco Pasqua (the Nazi-busting visionary who joined a civil action as part of the trial), write so many totally stupid things without the slightest shame, that they make me smile, even in my cell.*

*During our last talk during a prison visit, my mother – obviously upset by the vile hallucinations written about Yours Truly -- things that I've read here and there or "heard through the grapevine" – accused me of offending the members of the "crybaby nation" ...tsk! tsk!... and what sort of things could I ever have done that were so shameful as to arouse the sinister wrath of the circumcised??*

*Easy... I invented imaginary relatives gassed in the extermination camps in Poland... what a disgrace!!!  
What a scandal!!!*

*What a lack of respect!!!*

*How can I have permitted myself to joke about something so serious??*

*What reason could I have had to invent dead people?*

*Why did I permit myself to poke fun at men like Shlomo Venezia,[1] the Jews and so many others???*

*Obviously, the ever-so-clever hacks and shammashim (I don't know what that word means, ask them) have not twigged to the true and sole reason for all this: exposing the fakers!!! The fact is, that anyone can build himself his own "personal gassing victim" in just a few steps! This "victim" will then be included in the "official count" of "Shoah victims"... all you need to do is access the official site of the Yad Vashem Holocaust Museum in Jerusalem, fill out a form, invent the names, dates, data and even cause of death of some [imaginary] grandfather, uncle or acquaintance, send it in, and – presto! – after a very short while, you'll receive a beautiful certificate by post, to be printed out and framed... and, obviously, the name of the "gassing victim" (which you've just invented out of whole cloth, from A to Z, will be included in the official list of victims... no marital/family status is required, and there is no inquiry as to the veracity of the data you supply... you fill out a form and – presto! – the number swells like a balloon... this is the level of seriousness of the Holocaust researchers.*

*What's so shameful about all this?*

*Which is more shameful? Inventing names to unmask a fraud, or inserting data in an "official list" without any verification???*

*Who's screwing whom?*

*I look at Shlomo Venezia, whom I am supposed to have "offended" during the celebration of his death (or, rather, his "beatification"), and I'd like to say, very simply: a liar is still a liar, even if he's dead... revisionist researchers have shown that Venezia's "testimony" is a ridiculous heap of falsehoods: when chemistry, physics, and objective data inexorably collide with the "testimony", it's the first that should prevail, not the second – the pathetic media glorification of a liar does not make his lies true – not even his lies, unless one believes in a "slave mentality truth", with its round-the-clock cataract of mourning: hysterical howls and legal repression won't make obvious yarns and fibs assume the outlines of the truth... and Shlomo Venezia has told enough yarns to fill a book.*

*System hacks should take time to think that pointing the finger at the revisionists (contemptuously referred to as "Negationists") does not do justice to those who suffered or died during the deportations: the truth should never fear censorship or demonization as dissentient thought. If the revisionists are lying... prove it!!!*

*Faithfully yours,*

*Mirko Viola*

*nec spe – nec metu (Neither in hope nor in fear)*

Today, Nov. 16, 2013, the second half of the match is still being played out: 35 Italian citizens have been house-searched – the persons "processed" in this first "Sonderaktion" were 21. These actions of the repression [i.e., police] against 56 Italian citizens were taken merely because they made use of their freedom of expression on an American forum. The following is an article which reveals what is – to us – the real reason why the Jewish lobby decided to push the panic button and try to terrify these citizens into silence. They screwed up the mechanism which served the settlers of the Palestine Ghetto and its subsidiaries to inflate the number of "Jews" allegedly gassed/shot according to the S.H.F. (Standard Holocaust Fabulation). Author is Dr. [Mirko Viola](#), who is still detained on his 299th day in prison! As another treasure, I link to the candid statement of the Jew [Colombo Furio](#)...

## La legittimazione del ghetto ebraico di Palestina (detto i\$raele)?.....l'olocau\$to!

..."Se non fosse legalmente condannata, la negazione della shoah (che...si trasforma subito in "denuncia dell'imbroglione") seguirebbe (già accade) la negazione della **legittimità dello Stato di Israele (...)** e si griderebbe, **neonazisti e sinistre insieme, che Israele se ne deve andare, perché fondato sulle false lacrime della Shoah**".

(parole dell'ebreo colombo furio, <http://www.ilfattoquotidiano.it/2013/11/03/shoah-se-lintellettuale-finge-di-non-sapere/764672/>)

### Capito?

**Serve una legge che introduca il reato di negazionismo e mandi in galera fino a 7,5 anni gli storici che non credono all'olocau\$to ebraico... per tutelare il sionista stato di apartheid contro gli autoctoni palestinesi!**

We think that's enough! *Olodogma*

Dr. Viola speaks of an "upsurge" in death statistics used by the Jews from the Zionist entity of Palestine, let's take a more detailed look at what's involved:

The article, first published in Italy, did not appear to have aroused any interest or created any problems. The text was then posted on the American Internet site Stormfront, in the Italian section. This time, it did not pass unnoticed by the "Chosen", who seem to think they are "God & Co." ...

Dr. [Mirko Viola wrote](#) as follows from the prison where he had to be imprisoned for the crime of "damaging Holocaust & Memory Inc."...

*"Obviously, the ever-so-smart shammashim hacks (if you don't know what that means, ask your boss) are unable to perceive the real reason for all this: exposing the liars and fakers!!! Anyone can construct his own personal 'gassing victim', which will then be duly included in the official figure of 'deaths during the Shoah'... all you have to do is access the official site of the Yad Vashem Holocaust Museum in Jerusalem, fill out a form, invent the names, places, dates and even the cause of death, of your grandfather, uncle or an acquaintance, ad libitum, and send it off; after a very little while, as if by magic, you'll get a lovely certificate by post which you can print out and have framed... obviously, the name of the 'gassing victim' – which is completely made up – will be included in the official list of Holocaust victims... no family/marital status is required and no inquiry will be made to verify the veracity of the data you supply...if you fill out the form, the number gets blown up like a balloon...this is the seriousness of Holocaust researchers."...*

On 17 July 2012, Dr. Viola wrote the following, which was posted on [pontilex.org](#), in which he announced, in the spirit of one who feels he has been taken for a fool, the existence of the famous form:

## Mirko Viola – sez. Lario “Sturmtruppen” (updated)

Declaration of Dr. Viola, in his persona as "The Blogger"

At this point, on 23 July 2012, another blogger, a regular contributor to the site, known as “Faggot79”, posted the following truly traumatic statement:

Faggot79

23 luglio 2012 alle 1:14 AM

Ho fatto un poco di investigazione da giornalismo di inchiesta.

Dopo un po' di ricerca ho trovato il fantomatico form online. E' vero che i dati mandatori richiesti sono risibili; si tratta di inserire nome, cognome, sesso, grado di parentela e luogo di nascita della presunta vittima, che possono essere inventati facilmente. Ma è anche vero che vengono richiesti i dati anagrafici della persona che invia il form, che naturalmente possono essere inventati anche quelli. Fanno sapere che il database viene aggiornato una volta ogni sei mesi circa, quindi potrebbe anche darsi che facciano un minimo di controlli per assicurarsi che non siano dati inventati, non saprei come però.

Comunque se fra sei mesi troveremo nel database una certa **Edith Lang**, nata a Roma sapremo che aveva ragione Sturmtruppen. 🤔🤔🤔🤔

Declaration of blogger Faggot79

Faggot79, a rational person, but clearly suffering from the pangs of doubt – oh, ye of little faith – attempted to verify Dr. Viola's staggering claim: he therefore took the initiative and inserted a new post "justifying" Dr. Viola's actions::

Faggot79

24 luglio 2012 alle 1:11 AM

E' stata sollevata la questione. Ho voluto semplicemente verificare.  
Non che l'esito influisca in qualche modo. Anche ammettendo che un milione di nomi siano stati inventati di sana pianta, restano comunque altri milioni documentati dettagliatamente.

Subsequent post by Faggot79

This shows, by a process of commonplace logical deduction, that the name "Edith Lang, born in Rome", dated 23 July 2012 was not included in the official list; otherwise, if she were really included in the list, but if there were 2 or more "Edith Lang(s), born in Rome", and they would both be included. At this point, there is a need to file an additional bit of "official" information taken from the Corriere della sera dated 22-11-2004 where it says it has... "a promise that the data will be checked and entered into the database"...

## CRONACHE

Le informazioni disponibili in ebraico e in inglese

### Olocausto, in rete il database delle vittime

**Il Museo dell'Olocausto mette per la prima volta online le schede biografiche di 3 dei 6 milioni di ebrei uccisi dai nazisti**

La pagina Web del database delle vittime dell'Olocausto

**GERUSALEMME** - Per la prima volta il **museo dell'Olocausto** in Israele ha messo su Internet la vita di **tre dei sei milioni** di ebrei uccisi dalla Germania nazista. Il sito, [www.yadvashem.org](http://www.yadvashem.org), in **ebraico ed inglese**, è stato elaborato da circa millecinquecento persone nell'arco di un decennio. Si tratta della digitalizzazione di cinquant'anni di lavoro sulle biografie delle vittime della Shoah.

**LE FONTI** - Il nuovo database si basa in parte su più di **due milioni di "pagine di testimonianze"** presentate sin dal 1950 da parte di **sopravvissuti, parenti e amici** di ebrei sterminati durante l'Olocausto al **Yad Vashem**, il gigantesco museo e monumento situato alla periferia di Gerusalemme. Alcune informazioni, come è spiegato nel sito, provengono anche dalla **documentazione storica**, tra cui corrispondenze tra ufficiali nazisti o liste di detenuti nei campi di concentramento.

«Milioni di nomi che appaiono in parecchi documenti storici non sono stati ancora identificati o registrati nel database; molti altri nomi sono ancora nella memoria dei sopravvissuti o delle famiglie», riporta il sito che permette a familiari e amici di **segnalare eventuali nomi mancanti** con la promessa che verranno **verificati e inseriti nel database**.

**MOTORE DI RICERCA** - Due i modi per effettuare ricerche nell'archivio digitale: per **nome** o per **luogo**. Inserendo per esempio il nome "Milan" (Milano in lingua inglese) compare l'elenco delle vittime nate, residenti, deportate o decedute nel capoluogo lombardo. Scrivendo invece il **nome di una vittima** in **inglese** o in **ebraico**, si apre una pagina con un capoverso di **notizie biografiche**, come la data e il luogo di nascita, stato civile, la residenza e, se è nota, data e luogo di morte. Accanto al paragrafo compare un link attraverso il quale si accede alla visualizzazione della **"pagina della testimonianza"** presentata allo Yad Vashem. Accanto al nome della vittima, si trova un altro link con cui reperire ulteriori informazioni sugli altri membri della famiglia deceduti.

Article, *Corriere della*

Sera, with "promise" from the Yad Vashem

To sum up: Blogger Faggot79's "proof" that "Edith Lang, born in Rome" was "included" has been "successful". "Edith Lang, born in Rome" is a new number, added to the list of "Shoah victims"! One more "proof" of the "millions of victims documented in detail", according to "Faggot79"!

**Ergo, Dr. Viola's quid est probandum stands confirmed.**

Anyone can download limited numbers of the same form, fill it out with invented data and send it off by post – or e-mail, if you prefer; NO ONE will EVER verify the reliability of your information!

Objectively, it follows that with this simple method one can levitate the numbers of Holocaust victims to infinity! In practice, for the purposes of Hoaxoco\$t propaganda, they've added 1,000,000 "victims' names" in 6 years (2004→2010)! Easy-peasy... why not Six Million? History, real history, has no need of "fakes" and "forgeries", whether improvised or professional!

Is this the real reason for the unleashing of the "dogs of violent repression" by the Exterminationist system against the web, the sole means still free from "Jewish-Lobby" mind-control and conditioning and that of their Shabbat goyim? Very, very probably, yes!

[Olo-truffa](#) [= Holo-swindle] and Dr. Mirko Viola were right!
